May 20th - Beaver Creek Cleanup

Grab your trash bags, clippers, and weed eaters! Come out to Beaver Creek and lend a hand to help keep the stream more accessible for all anglers.

June 3rd - Mossy Creek Invitational

The Mossy Creek Invitational (MCI) has been held in Bridgewater, VA since 2008 to raise funds in support of our 200+ Programs nationwide and the injured and disabled veterans they serve in their communities. The MCI is graciously hosted each year by Robin and Bob Fitch and is one of PHWFF's premier fundraising events while also serving as a fun fly fishing competition. PHWFF veteran participants are paired with a sponsor and professional fly fishing guide for a day of memorable angling on Virginia's famed Mossy Creek.

June 10th- SAGE On The Water Tour

Love dries? Love sight fishing in a spring creek environment? Come join us on Mossy Creek where you can demo gear, test your skills on some beautiful browns, and join in the mid-day education that happens at our On The Water Schools. We will have rods from 0wt-7wt in the van, so you can go check out a rod and take it bluelining for the day or fish big streamers to the trophies that swim in Mossy Creek. We are very excited to share this unique fishery with those in attendance. See you on the water.

June 17th - Project Healing Water Tournament

Stay tuned and check out the Massanutten TU website for more details on this event in the weeks to come

Fishing Reminder

From June 16 through September 30 anglers can fish in stocked trout waters without a trout license.

SAGE - ON THE WATER TOUR

Bringing fellow fly fisherman together to share knowledge and good times is the mission of our ON THE WATER tour. So we got a VW bus and loaded it up with tons of rods for you to fish with along spectacular southeastern rivers and beaches. There will be casting lessons, presentations, and of course food and drinks. Various members from the Sage team will be along to talk fish and answer questions. If you love to fly fish, want to try out some new gear, pick up a tip or two, or simply share some good stories, then come join us! All are welcome.

Schedule of Events - June 10th 2017

8am Demo Rods available to checkout and take fishing

11:30-1:30pm Lunch

11-12pm On The Water School // Euro Nymphing Demo with Russell Miller of Team USA and Sage Fly Rods

12-1pm On The Water School // Trout Spey Demo

1-2pm On The Water School // Fishing the Dry

6pm Demo Rod return

Project Healing Waters

The Walter Reed/Quantico Marine/Ft. Belvoir Project Healing Waters group had a wonderful time out on Beaver Creek a few weeks ago.

Good Company - Nice Fish - Big Grins

Big thanks to those who volunteered their time, energy and land for this event
